Section D – Information Sheet Filings

The initial SPC shall be filed with the Commission or postmarked on an Information Sheet with supporting data no later than September 20, 2020, effective October 1, 2020. An Information Sheet with supporting data filed after that date, but prior to the effective date, shall be accepted only if it corrects an error or errors from a timely filed Information Sheet for the same effective date. If the Company determines that it is appropriate to revise the SPC to better match revenues or expected revenue with costs incurred or expected to be incurred, the Company may, from time to time, calculate a revised SPC to become effective at the beginning of any monthly billing period. The SPC shall be reviewed on a quarterly basis. If the Company deems a revision to the SPC is necessary during the Effective Period, the Company shall file the revised SPC for each Customer Classification with the Commission on an Information Sheet filed on the 20th of the month following the filing of the quarterly report of its COVID-19 Related Costs. The information sheet submission shall be accompanied by workpapers showing the calculation of that SPC and these materials shall be made available upon request to the parties to Docket No. 20-0309.

Section E – Annual Reconciliation

After the SPC has been in effect for 36 months, the SPC shall be set to zero until the Commission completes a reconciliation and determines whether reconciliation or prudence and reasonableness adjustments are warranted. On or before December 20, 2023, the Company shall file a petition with testimony and exhibits that support the accuracy and prudence of the Total COVID-19 Costs. The reconciliation will compare (a) the actual Total COVID-19 Costs with the forecasted Total COVID-19 Costs and (b) revenues collected under this rider during the Effective Period with the anticipated amount of revenues that were to be recovered or refunded under this rider. In conjunction with the reconciliation filing, a new Information Sheet may be filed adjusting the then effective SPCs under this rider for the amount to be reconciled. Supporting documentation and workpapers affecting the information presented in the Company's reconciliation petition shall be provided to the Commission's Accounting Staff at the time of this filing and be made available upon request to the parties to Docket No. 20-0309.

If, after hearing, the Commission finds that the Company has not shown all costs to be reasonable and prudently incurred or has incorrectly calculated, debited, or credited costs or revenues during the applicable reconciliation year to the extent that the adjustment has not already been reflected through an adjustment to the RA component of the SPC, the difference determined by the Commission shall be refunded or recovered, as appropriate, in the same manner that the charge was initially collected through the O component. Amounts either collected or refunded through the O component shall accrue interest at the rate established by the Commission under 83 Illinois Administrative Code Part 280. Interest on the O component shall be applied from December 31, 2023 until the O component is refunded or charged to customers through the SPC.
